

A note to all clients

OK, so you've decided to use our shipping services to one of our destinations for your next holiday on your own bike.

You'll want to take some clothing in a suitcase on the flight with you – that empty suitcase can be stored at the depot at your chosen destination.

We can take your Panniers & Top Box in the container, BUT NOT ON THE BIKE!!

Panniers & Top Box can be filled with helmets, leathers, boots etc – they must all be clean enough to pass stringent Quarantine inspections.

Bubble wrap (2 layers) the Panniers & Top Box and we'll take it in the container, BUT that's your limit of what we'll take, unless it's a small package (no more than 60cm long and 40cm diameter) mounted on the bike's seat length ways.

Tank bags can be left on the tank. Ventura packs can be left on the pack racks, but turned around so they are sitting on the pillion seat.

Hope you read this thoroughly, because we will stick to this rule, and if you bring too much stuff to put in the container we will refuse to load it....and you'll be pissed off and embarrassed that you didn't read this thoroughly.

**Kind regards
Dave Milligan**
